Work Experience

Carroket, Inc.

Principal Designer and Developer, 2010 – Present

I have served as the primary designer and developer of Carroket's in-house web and mobile projects and I have contributed to numerous client projects, including web and mobile applications and social games.

Notable clients and client projects have included:

- ★ Zynga (2015) - avatar-customization system for Words With Friends EDU
- ★ TiVo (2012-2013) - example and performance-testing applications
- ★ Samsung (2011-2012) - web and mobile application prototypes
- ★ CrowdStar (2011) - game development tools and game UI prototypes
- ★ Waste Management (2010-2011) - game avatar and menu systems

WebEnergia, Inc.

Technical Writer, 2016 – 2018

I wrote instructional articles for WebEnergia's blog, including an advanced AngularJS tutorial and several tutorials about customizing WordPress.

Cisco Systems, Inc.

Front-End Web Developer, 2013 – 2014

I developed web software for Cisco's Cloud and Virtualization Group.

Notable experience included:

- ★ JavaScript, HTML5, and CSS 3
- ★ jQuery, jQuery UI, AngularJS, and Bootstrap
